

The dental PPO plan has a large network of dentists to choose from

## SEARCH FOR A DENTAL PROVIDER

1. Log onto [www.deltadentalins.com](http://www.deltadentalins.com)
2. On the Delta home page, scroll to the “Find a Dentist” box

The screenshot shows a search form titled "Find a Dentist". It includes a section for "Enrollees" with a question "Not sure of your plan?" and a link to "Log in to Online Services to find a dentist". Below this are three input fields: "Location:" with a text box containing "Address, ZIP or City, ST"; "Select Network:" with a dropdown menu showing "Delta Dental PPO"; and "Dentist, Practice or Keyword:" with a text box containing "Name, Practice...". A "Search" button is located at the bottom of the form.

Enter your location

Choose the Delta Dental PPO

Optional: Enter the dentist name here to see if they are in the network

3. The Delta Dental Premier network is Delta Dental’s largest dentist network. When you visit a Premier dentist, you pay no more than the co-insurance percentage.
4. Delta Dental PPO is the second largest dentist network. With Delta Dental PPO, you have the flexibility to visit any licensed dentist.

### TIPS!

You and your enrolled dependents can each have a different provider.

You can still see a dentist that is not in the network. However, you may be billed for the balance that is not covered for insurance.
